

# Fourth European Summer School on "Computational and Mathematical Modeling of Cognition"

July 10 - 24, 2016, Dobbiaco, Italy

Venue: Hotel Union | <http://www.hotelunion.it>

Applications are now being considered (until April 30, 2016)

To apply and for further details: <http://sites.uci.edu/cmmc>

Most areas of cognitive psychology have recognized the power of computational and mathematical models and have embraced their benefits to rigorous theorizing. One illustration of this trend is the growing popularity of Bayesian approaches to cognitive modelling. This powerful trend comes, however, at a cost: The complexity of models and modelling techniques render it increasingly difficult for non-experts to acquire the necessary skills and then keep pace with developments. This summer school is dedicated to introducing researchers to the basic techniques of computational and mathematical modelling from the ground up and in a hands-on manner. The instructors represent a broad range of expertise and are all research leaders in their field with extensive experience in teaching of modelling.

## Cost

The complete cost of the Summer School is €495 including (a) twin share accommodation at the conference hotel; and (b) breakfast and dinner (but not lunch).

## Applying

We invite applications from researchers at all levels (graduate students, post-docs, and faculty), from anywhere in the world. Visit <http://sites.uci.edu/cmmc/> for further details and to submit an application. Application deadline is 30 April, 2016.

## Faculty:

**Stephan Lewandowsky**

University of Bristol, UK

**Simon Farrell**

University of Western Australia, Australia

**Jörg Rieskamp**

University of Basel, Switzerland

**Klaus Oberauer**

University of Zurich, Switzerland

**Lael Schooler**

Syracuse University

**Amy Criss**

Syracuse University

**Casimir Ludwig**

University of Bristol, UK

**Gordon Brown**

University of Warwick, UK

**Bob French**

CNRS, University of Burgundy, France

**Joachim Vandekerckhove**

University of California, Irvine

**Eric-Jan Wagenmakers**

University of Amsterdam, the Netherlands
