  ■ New assignment opens when previous closes (1 week)

● Experiment 2 has two parts.
  ■ Use product from 1st part in 2nd part.
  ■ No post-lab until after 2nd part.
Announcements

- Monday, Jan 18 - Holiday
  - No classes
  - Lab lecture slides will be available on class website for Mon lab lec to review - Will post a discussion of Q of Week on Piazza at end of week.
  - (Yes, I have already accounted for holiday in Mon lab lecture points...)
About Academic Honesty

Dishonest conduct or any cheating will not be tolerated. -iClicker cheating is still cheating.

Dartmouth Gives Students a Lesson – Don’t Cheat in Ethics Class

By Michael McDonald  Jan 8, 2015 3:46 PM PT  16 Comments  Email  Print

*Dartmouth College* accused 64 students of cheating in a sports ethics class last semester, the latest in a string of cases of academic dishonesty involving athletes at elite U.S. colleges.

Students used a hand-held device known as a clicker to answer questions for classmates who were absent, according to Randall Balmer, who teaches the class, “Sports, Ethics and Religion.”
Questions?
Problem of the Day

Determine limiting reagent and theoretical yield.

\[
\begin{align*}
&\text{165 mg NaI} \\
&\text{acetone} \\
\end{align*}
\]

\[
\text{0.15 mL benzyl chloride}
\]

\[
\begin{align*}
&\text{ANSWER CHOICES} \\
&\text{AA)} \text{ benzyl chloride, 165 mg} \\
&\text{AB)} \text{ benzyl chloride, 240 mg} \\
&\text{AC)} \text{ benzyl chloride, 283 mg} \\
&\text{CD)} \text{ sodium iodide, 165 mg} \\
&\text{CE)} \text{ sodium iodide, 240 mg} \\
&\text{CF)} \text{ sodium iodide, 283 mg}
\end{align*}
