In Class problem 13, 14 (from MT2 Spring 2015):

13. Rank the following compounds in order of *decreasing* acidity. (1 = most acidic)

- a. 3, 5, 1, 2, 4
- b. 4, 5, 1, 2, 3
- c. 4, 5, 3, 1, 2 d. 2, 1, 5, 4, 3

14. Rank in order of decreasing basicity (1 = strongest base):
