* MPGe: Miles per gallon gasoline equivalent (MPGe) is a measure of the average distance traveled per unit of energy consumed. Based on EPA formula of 33.7 kW/hour equal to one gallon of gasoline energy. Approximate MPG or MPGe based on 2019 model year data.

** Carbon Footprint information based on vehicle driven 15,000 miles per year. Information from fueleconomy.gov. For more information, see CARB's website at arb.ca.gov/msprog/onroad/cert/cert.php

MSRP - Manufacturer's Suggested Retail Price, which generally excludes tax, title, license, dealer fees, destination freight charge and optional equipment.
