

9th class

-1-

[This class consisted of going over the purport files and using them to talk about the evolution of ideas across a career.]

What skills and behaviors at school entry, ^{best} help to ensure school success?

(1) What skills and behaviors predict success?

(2) What skills and behaviors, if augmented in, say, 1st grade would boost success?

In terms of quantitative analysis,

$$\text{Achievement composite at, say, grade 5} = a + b_1 \text{ Early academic} + b_2 \text{ early behaviors}$$

What bias stories compromise internal validity
