

“Glenda Flores has crafted a milestone study on Latinas in the classroom. Interrogating familiar cultural practices as assets not deficits and Latino parents as allies not obstacles, Professor Flores brings out the ‘difference’ Latina teachers make in racially diverse schools. Moving well beyond a dialectic of European American teacher and Latino student, she deals with the everyday challenges of diversity with white, Latino, African American, and Asian students, parents, educators, and administrators and the types of coalitions and tensions that evolve along interracial lines. Timely, astute, and heartfelt, *Latina Teachers* is essential reading.”

LATINA TEACHERS
Creating Careers and Guarding Culture

GLENDAM. FLORES

How Latina teachers are making careers and helping students stay in touch with their roots

Latina women make up the fastest growing non-white group entering the teaching profession at a time when it is estimated that 20% of all students nationwide now identify as Latina/o. Through ethnographic and participant observation in two underperforming majority-minority schools in Los Angeles, as well as interviews with teachers, parents and staff, *Latina Teachers* examines the complexities stemming from a growing workforce of Latina teachers.

The teachers profiled use Latino cultural resources and serve as agents of ethnic mobility. They actively teach their students how

to navigate American race and class structures while retaining their cultural roots, necessary tactics in an American education system that has not fully caught up with the nation's demographic changes. Flores also explores the challenges faced by Latina teachers, including language barriers and cultural acclimation, and professional inequalities that continue to affect women of color at work.

An unprecedented look at an understudied population, *Latina Teachers* presents an important picture of the women who are increasingly shaping the way America's children are educated.
