

The Title Should Be in Title Case (See Below), Single Spaced, Times New Roman, Bold 14-point, and the Text Should Be Left Justified

First Author¹, Second Author² and Third Author³ (Times New Roman 12-pt left justified). Each name should have a superscript number to reference the author's affiliation. Use single line spacing. Leave one blank line between the title and author list, and one blank line after the authors' names before the list of affiliations.

¹Affiliation of the first author, including Department/Institution, City and Country. (12pt)

² Affiliation of the second author, including Department/Institution, City and Country. (12pt)

³ Affiliation of the third author, including Department/Institution, City and Country. (12pt) Leave one blank line after authors' affiliations.

The abstract should be a condensed version of your presentation and include all significant findings within one page. The text, entirely written in English, should include a brief introduction and motivation of the study, including experimental procedures, main results, and conclusions. It is not necessary to divide the text into sub-sections, except for the References section.

Capitalize all major words in your title as shown in the example above (nouns, pronouns, verbs, adjectives, adverbs, and some conjunctions). Use lowercase for articles: the, a, and an; for the following conjunctions: and, but, for, or, and nor; for the part of a proper name that would be lowercased in the text, such as de or von; and for the second part of a species name, such as *fulvescens* in *Acipenser fulvescens*, even if it is the last word in a title or subtitle.

Your abstract must be submitted as Adobe PDF format with NO document security and with the .pdf file name extension, AND as an editable word processing file (preferably Microsoft Word) in .doc, .docx formats. The PDF of the paper MUST have fonts embedded. Use a 12-point Times New Roman typeface and single spacing between lines. Use italics for taxonomic terms. Avoid individualized formatting and special typefaces. Document margins should be one inch (25.4 mm) top and bottom and 0.75 inches (19.1 mm) left and right.

The abstract may contain figures, figure captions, and tables in addition to text, but the length of the abstract should be limited to one page. Include figure labels and scale markers on all figures. Captions should be placed below all figures and tables. Artwork and tables must be electronically inserted into the document. Line art must be created either in a drawing program or scanned into a suitable format for importing into the document. Check that the line widths and font sizes allow the figure to be clear at its final size.

References should be included at the end of the page, with the appropriate reference styles for conference proceedings [1], journal articles [2], and books [3]. Indicate references in the text with Arabic numbers in square brackets, preferably at the end of the sentence, before the period. Acknowledgments should be included as the last reference, which should be cited at the end of the last sentence of the text.
