

**15 Minutes of TIME (Technology in Medical Education) Podcast Series
December 2013-December 2014**

UCI OCME requires that the content of CME activities and related materials provide balance, independence, objectivity, and scientific rigor. Planning must be free of the influence or control of a commercial entity, and promote improvements or quality in healthcare. It is the policy of the UCI Office of Continuing Medical Education to insure balance, independence, objectivity, and scientific rigor in all its educational activities. All faculty participating in UCI sponsored CME programs are expected to disclose to the activity participants any real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the continuing medical education activity. This pertains to relationships with pharmaceutical companies, biomedical device manufacturers, or other corporations whose products or services are related to the activity content. The intent of this policy is identifying potential conflicts of interest so participants can form their own judgments with full disclosure of the facts. It remains for the participants to determine whether the speaker's outside interests reflect a possible bias in either the exposition or the conclusions presented.

The following speakers/planners have indicated they have no relevant financial relationships to disclose:

[Julie H. Youm, Ph.D.](#)

The views and opinions expressed in this activity are those of the faculty and do not necessarily reflect the views of the University of California, Irvine School of Medicine.
