

## Bloom's Taxonomy

Bloom's Taxonomy provides an important framework for teachers to use to focus on higher order thinking. By providing a hierarchy of levels, this taxonomy can assist teachers in designing performance tasks, crafting questions for conferring with students, and providing feedback on student work

This resource is divided into different levels each with **Keywords** that exemplify the level and questions that focus on that same critical thinking level. **Questions for Critical Thinking** can be used in the classroom to develop all levels of thinking within the cognitive domain. The results will be improved attention to detail, increased comprehension and expanded problem solving skills. Use the keywords as guides to structuring questions and tasks. Finish the Questions with content appropriate to the learner. **Assessment** can be used to help guide culminating projects. The six levels are:

**Level I Knowledge**

**Level II Comprehension**

**Level III Application**

**Level IV Analysis**

**Level V Synthesis**

**Level VI Evaluation**

Select a meal that one of the main characters would enjoy eating: plan a menu, and a method of serving it.

Think of a situation that occurred to a character in the story and write about how he or she would have handled the situation differently.

Give examples of people the student knows who have the same problems as the characters in the story.

## **Blooms Level IV: Analysis**

Examine and break information into parts by identifying motives or causes. Make inferences and find evidence to support generalizations.
