

Math 2E — Suggested Homework 8

Peyam Tabrizian

Thursday, February 27, 2020

Reading: Section 16.7. Ignore everything after Example 5 (but know Example 5). *Please don't* memorize formulas 5 and 10, it's so much easier to do it directly with parametrizations!

Note: For this quiz, you are **NOT** responsible for Section 16.5 and 16.9, even though we will cover it on Wednesday's lecture.

- **Section 16.7:** 5, 6, 7, 10, 15, 16, 17, 22, 23, 25, 27, 28
