

UCI Research Cyber-Infrastructure Symposium

Wednesday, January 27, 2016

8:40 a.m. - 4:00 p.m.

Calit2 Auditorium and Atrium

RSVP for catered lunch in the Atrium at 11:45 a.m.

Go to:

sites.uci.edu/researchcyberinfrastructure/symposium/

Faculty: Help identify current and future RCI needs for training, support, infrastructure, and security.

Research Cyber-Infrastructure (RCI) consists of computational systems, data and information management, and people; all linked together by software and advanced networks to improve scholarly productivity and enable knowledge breakthroughs and discoveries not otherwise possible.

Presentations by and for UCI Faculty

Also Including –

- UC RCI Leaders
- UCI RCI Support Groups
- Cloud Computing Experts from Amazon and Microsoft

Sponsored by

UCI's Research Cyber-Infrastructure (RCI) Vision Workgroup
and the UCI Data Sciences Initiative

UC Irvine
