Adding the Examity Link to a Course
This step-by-step guide can be performed by an administrator or instructor

1. Click on "Courses" > Then select your course name to add Examity > Next, click on "Modules" > and select the "+ Module" button

2. Enter the name as "Examity" in the Add Module popup. Then select the "Add Module" button
When the Examity module is added, select the “+”

The “Add Item to Examity” pop up window will appear.
- Select “External Tool” in the dropdown
- Select “Examity”
- URL and Page Name will auto populate
- Check the “Load in a new tab” box
- Select “Add Item”
